2. SIGNIFICANT ACCOUNTING POLICIES

2.1. Basis of preparation

The annual accounts have been prepared in accordance with Luxembourg legal and regulatory requirements. Accounting policies and valuation rules are, besides the ones laid down by the Amended Law dated 19 December 2002, determined and applied by the Board of Directors.

The annual accounts have been prepared under the historical cost convention, except for items relating to foreign exchange hedging activities.

All monetary amounts in the notes are in Euro unless otherwise indicated.

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the annual accounts therefore fairly present the financial position and results.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

2.2. Foreign currency translation

The Company maintains its accounts in Euro and both the balance sheet and profit and loss account are expressed in this currency.

Transactions in foreign currencies are recorded at the rate of exchange ruling on the transaction date. With the exception of fixed assets, all assets and liabilities denominated in foreign currencies are converted at the rate of exchange ruling at the balance sheet date. Related realised and unrealised gains as well as realised and unrealised losses are recognised in the profit and loss account.

In the context of the management of foreign exchange risks from its operations, the Company enters into forward foreign exchange transactions with Group companies. Unrealised losses arising from such transactions are recognised in the profit and loss account.

2.3. Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated amortisation. They are amortised on a straight-line basis over their estimated useful lives of three to four years. Where the Company considers that an intangible fixed asset has suffered a durable depreciation in value, an additional write-down is recorded to reflect this loss. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.4. Goodwill, to the extent that it was acquired for valuable consideration

Goodwill recorded under intangible fixed assets represents the difference between the carrying amount of the shares of RTL Nederland S.A. previously held by the Company and the net book value of assets and liabilities transferred to the Company when the merger occurred in 2005. This merger difference is amortised on a straight-line basis over a period of 20 years.

2.5. Tangible fixed assets

Tangible fixed assets are stated at cost, including expenses incidental thereto, less accumulated depreciation. Depreciation is recognised on a straight-line basis over the estimated useful lives of the tangible fixed assets:

- Land: nil;
- Buildings: ten to 25 years;
- Plant and machinery: four to ten years;
- Other fixtures and fittings, tools and equipment: three to ten years.

Where the Company considers that a tangible fixed asset has suffered a durable depreciation in value, an additional write-down is recorded to reflect this loss. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.6. Financial fixed assets

Shares in affiliated undertakings and in participating interests as well as securities held as fixed assets are recorded on the balance sheet at acquisition cost, including expenses incidental thereto. A value adjustment is made when there is a durable diminution in their value. These value adjustments are not continued if the reasons for which these value adjustments were made have ceased to apply.

Investments are classified as affiliated undertakings if the Group is able to exercise control over the Company concerned and the company is included in the consolidation scope of RTL Group S.A..

Certain participating interests operate under the legal form of partnerships. The Company records its share of the profits to be allocated or of the losses in the profit and loss account. Such losses are recorded as value adjustments when the financial support is given in the form of an advance to the companies concerned. Surplus losses are booked as a provision.

Dividends from shares in affiliated undertakings and participating interests are recognised in the profit and loss account when declared by decision of the General Meeting.

The utilisation of neutralised capital gains (Note 3.7.3.) from the sale of financial fixed assets is reflected by transfer from capital gains to be reinvested to the caption "Temporarily not taxable capital gains".

Amounts owed by affiliated undertakings and by undertakings with which the Company is linked by virtue of participating interests are recorded at acquisition cost, including expenses incidental thereto, or nominal value in the balance sheet. When the market value or the recoverable value is lower than the acquisition cost or nominal value, a value adjustment is recorded. These value adjustments are not continued if the reasons for which these value adjustments were made have ceased to apply.

2.7. Finished goods and merchandise

Finished goods and merchandise include programmes in process, (co-)productions as well as rights acquired with the primary intention to broadcast or sell them in the normal course of the Group's operating cycle. They are accounted for at their acquisition cost.

Consumption is calculated based upon expected revenue. This method consists in amortising the acquisition cost in the ratio of net revenue for the period to anticipated total net revenue. Estimates of anticipated total net revenue are reviewed periodically. If estimated total net revenue is below acquisition cost, the book value of the rights is adjusted to anticipated total net revenue.

Finished goods and merchandise are booked as an asset on the balance sheet at the date of availability of the rights. The Company records an off-balance sheet commitment for contracts concluded for which the date of availability of the rights has not been reached.

2.8. Debtors

Debtors are recorded at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.9. Cash at bank, cash in postal cheque accounts, cheques and cash in hand

The Company reports on the balance sheet the net amount of the debit and credit positions of the bank accounts when these positions relate to the same currency in the same bank and a netting agreement exists with the bank. If these conditions are not met, credit positions are recorded as bank overdrafts in "Amounts owed to credit institutions".

2.10. Prepayments

The Company reports under this caption expenditure incurred during the financial year but relating to a subsequent financial year.

**2.11. Provisions**

Provisions are intended to cover losses or liabilities, the nature of which is clearly defined and which, at the date of the balance sheet, are either likely to be incurred or certain to be incurred but uncertain as to their amount or date on which they will arise.

Provisions may also be created to cover charges which originate in the financial year under review or in a previous financial year, the nature of which is clearly defined and which at the date of the balance sheet are either likely to be incurred or certain to be incurred but uncertain as to their amount or the date on which they will arise.

The Company participates in a defined benefit plan. This plan is financed internally via accruals which are determined by independent qualified actuaries using the aggregate cost method (percentage of payroll). The level of accruals exceeds the minimum financing requirement. In case of bankruptcy, the benefits are preserved through the PSVaG insolvency reinsurance.

2.12. Non subordinated debts

Non subordinated debts are recorded at their nominal value.

2.13. Deferred income

The liability items include income received during the financial year but related to a subsequent financial year.

2.14. Net turnover

Net turnover includes advertising income, rights sales and other sales, net of sales commissions and deductions such as cash rebates, credit notes, discounts, refunds and VAT.

As from 1 January 2001, the Company is part of a tax unit led by RTL Group S.A. including other Luxembourg Group companies. In the event that CLT-UFA would have taxable income, CLT-UFA will not record income tax charges as long as the tax unit will benefit from unused tax losses. CLT-UFA also paid income tax related to its investments in fiscally transparent companies.

On 26 June 2008, the Board of Directors of RTL Group S.A. and CLT-UFA S.A. agreed to proceed with the tax pooling of their indirect subsidiary RTL Group Deutschland GmbH into Bertelsmann Capital Holding GmbH, a direct subsidiary of Bertelsmann SE & Co. KGaA.

To that effect, RTL Group Deutschland GmbH entered into a Profit and Loss Pooling Agreement ("PLP Agreement") with Bertelsmann Capital Holding GmbH for a six-year period starting on 1 January 2008.

Simultaneously, Bertelsmann SE & Co. KGaA entered into a Compensation Agreement with CLT-UFA which was subsequently amended on 22 May 2013, providing for the payment to CLT-UFA of an amount compensating the above transfer and an additional commission amounting to 50 per cent of the tax saving based upon the taxable profit of RTL Group Deutschland GmbH.

After six years, both PLP Agreement and Compensation Agreement are renewable on a yearly basis. RTL Group Deutschland GmbH and CLT-UFA have the right to request the early termination of those agreements under certain conditions. The compensation and the commission are recognised in the same period and are presented as income from financial fixed assets derived from affiliated undertakings. In 2014, the PLP Agreement was slightly amended on the basis of a recent change in the German Corporate Tax law.

In October 2008, CLT-UFA received a pledge on all shares of Bertelsmann SE & Co. KGaA's wholly-owned English subsidiary (Bertelsmann UK Ltd) and all of Bertelsmann SE & Co. KGaA's interest in the German limited liability partnership Gruner + Jahr GmbH & Co. KG., to secure all payments owed by Bertelsmann SE & Co. KGaA that are related to the PLP Agreement.

Since December 2013, the pledge also includes Bertelsmann's Spanish assets relating to Random House and the U.K. assets relating to BMG Publishing.

These pledged assets also secure payments due to the Group under the deposit agreements between Bertelsmann SE & Co. KGaA and RTL Group S.A. The Hungarian cable channel business, which consisted of seven cable channels and was operated by Hungarian based company RTL Kabeltelevizio Kft until 31 December 2014 under six Romanian and one Hungarian broadcasting licences, was reorganised with effect from 1 January 2015.
